

FAIRPLAY RULES & CHARGES

Carsharing only works if we all work together.

Flex is based on fair play and mutual respect. It is important for all vehicles to be returned on time, in a clean state and at least one third refueled and electric cars must be connected to the charging stations. The next customer will be very thankful.

7 simple fair play rules

- **Before starting off, check the vehicle for damage. Immediately report any damage via the Flex app.** This is the only way to guarantee that you will not be held accountable for any damage noted by the next customer.
- Return your Flex car to the pick-up location on time
- Clean any stains/dirt you may have caused and remove all waste
- All vehicles are non-smoking vehicles
- When transporting animals, use an appropriate crate. If necessary, clean and air the vehicle before returning it
- Report if Flex reserved parking spaces are blocked
- Make sure the fuel level is above one third or the electric vehicle is properly connected to the charging station and is also charging.

Fair play - Charges

Vehicle not returned to correct station	Handling fee (at least 135€)
Vehicle returned with fuel level below one third	25 €
Electric vehicle not hooked up to the charging station or is not charging	25 €
Removal of stains or of strong odors (like cigarettes)	If reported: handling fee If not reported: 50 € + handling fee
